

OUTLOOK BRIGHTER FOR STATEHOOD BILL

President Expresses Desire of Admitting Arizona and New Mexico Speedily.

WASHINGTON, June 14.—The white house information today was to the effect that congress might adjourn on Saturday of next week. There is, of course, a chance that this programme may be upset, especially as the president is insisting that the statehood bills shall be enacted into law before adjournment.

President Taft yesterday sent for Senator Beveridge of Indiana and told him he desired statehood at this session for New Mexico and Arizona. This morning the president had a further conference with Senator Dick of Ohio, a member of the territories committee, of which Mr. Beveridge is chairman. Governor Sloan of Arizona was at the white house today.

Although the house already has passed a statehood bill, it is said the lower branch stands ready to accept a bill prepared by the senate, and that one will pass the senate within the coming week. An agreement is said to have been reached by which the senate will take the house postal savings bill in return for the house taking the senate statehood bill.

The conservation legislation, giving the president authority to withdraw water power sites, phosphate and coal lands, etc., until special legislation for the distribution of these lands can be passed, will be taken up immediately after the postal savings bill is out of the way, and statehood will follow conservation.

DECLARES INSURGENTS TO BE PRACTICALLY BEATEN

WASHINGTON, June 14.—Senator Louis Core, who represents at this capital the Madrid government of Nicaragua, said today that he had received yesterday reporting the occupation of Cape Gracias a Dios by the Madrid forces. Thus Mr. Core points out, the entire coast of Nicaragua, in the possession of Madrid. Bluefields, itself with its harbor entrance controlled by Madrid, is practically under their power.

Core declares that Bluefields and Rama, a few miles further up the river (the two having all told a population of not over 500 people) constitute all Nicaraguan territory in the possession of the Estrada insurgents. He contends therefore that the independent republic which Estrada desires to establish would present the impossible anomaly of a republic entirely within the territory of another and more powerful nation.

Senator Core has lately been making some energetic representations to the state department for one thing he had produced what he declares to be absolutely conclusive evidence that President Cabrera of Guatemala has been supplying arms and munitions to the Estrada forces and that these supplies have been carried directly into Bluefields, although they would have been seized by the Madrid vessels. Core says, but for the interference of Captain Gilmer of the Paducah.

HANSON NOW CHARGED WITH ARSON IN SECOND DEGREE

Special to The Tribune.

BEAVER, June 14.—Frank E. Hanson must stand trial on a charge of arson in the second degree. He was so charged in an amended information filed against him in the district court today. He pleaded acquittal of the charge of arson in the first degree in November, 1909, but the court held that the evidence was not sufficient to sustain his plea, and he will, therefore, have to stand trial. Judge J. A. Howell of the first judicial district is trying the case. The state is represented by District Attorney Edmund H. Ryan, William F. Knox, county attorney for Beaver county, and W. R. King, county attorney for Millard county. Judge Thomas Marionette of the district court of Salt Lake appears for the defense.

HARD ON CHILDREN

When Teacher Has Coffee Habit.

"Best is best, and best will ever live." When a person feels this way about Postum they are glad to give testimony for the benefit of others. A school teacher down in Miss. says: "I had been a coffee drinker since my childhood, and the last few years it had injured me seriously. "One cup of coffee taken at breakfast would cause me to become so nervous that I could scarcely go through with the day's duties, and this nervousness was often accompanied by deep depression of spirits and heart palpitation. "I am a teacher by profession, and when under the influence of coffee had to struggle against crossness when in the schoolroom. "When talking this over with my physician he suggested that I try Postum, so I purchased a package and made it carefully according to directions; found it excellent for flavor and nourishing. "In a short time I noticed very gratifying effects. My nervousness disappeared, I was not irritated by my pupils, life seemed full of sunshine, and my heart troubled me no longer. "I attribute my change in health and spirits to Postum alone." Read the little book, "The Road to Wellville," in pgs. "There's a Reason."

ALL AGREE ON RAILROAD BILL

Continued from Page One.

To increase such rates unless after hearing by the commission, it shall be found that such proposed increase rest upon changed conditions, and the elimination of water competition.

This provision was added in lieu of far more radical provisions introduced by Senators Smith and Burton and adopted by the senate.

Suing for Damages.

A senate amendment submitted by Mr. Shively of Indiana authorizing shippers to sue railroads for damages resulting from misquotation of rates was eliminated before it came to the floor.

The house amendment to prescribe a penalty for attempting to obtain advance rates in the matter of rates through false representations was retained.

The conferees also accepted the house provision striking out the specific language of the present law as to the objects about which complaints may be filed, and authorizing the commission to make investigations on its own motion to the same extent as though complaint had been filed.

In retaining the senate provisions authorizing the suspension of a carrier for failure to put the burden of proof upon the railroad as to the reasonableness of such increase the conferees added a provision.

"The commission shall give to the hearing and decision of such question, preference over all other questions pending before it, and decide the same as speedily as possible."

Senator Paynter's amendment requiring an issuance of orders by the old and the increased rates and to require railroads to reimburse shippers for the amount of the increase in the event the commission declared it unjust, was stricken out.

Suburban and Interurban.

The house provision authorizing the commission to make through routes between suburban and interurban and steam railroads was retained.

Railroads and their agents will be prohibited, through the retention of a senate amendment from disclosing information concerning a shippers' business, except under due process of court.

The conferees struck out the senate provision requiring the commission to make an analysis of classifications and tariffs every six months.

Senator Overman's amendment providing that the new law shall take effect thirty days after passage. The conferees, however, inserted a provision that section 12, which suspends the commission to suspend proposed rate increases and section 16, which authorizes the commission to appoint a committee to study stocks and bonds, shall take effect immediately.

RURAL MAIL CARRIERS TO BECOME WEATHER SHARPS

WASHINGTON, June 14.—To extend the United States weather bureau service to the rural districts by making every rural mail carrier a herald of the official prediction is the idea of Representative McHenry, Democrat, Pennsylvania, who has introduced a bill to that effect.

McHenry proposes in his bill to have every wagon display the weather prediction for the day. The rural mail wagons would leave their starting points each day displaying flags indicating to every farmer and country resident the opinion of the government weather bureau as to what the weather would be for the next twenty-four hours.

Suspension or dismissal is fixed in the bill as a penalty for the refusal of a rural mail carrier to comply with its provisions.

Bastes Judiciary Committee.

WASHINGTON, June 14.—Charging that Representative Parker of New Jersey, chairman, and other members of the committee on judiciary were "receiving gifts, favors, employment and compensation of great and pecuniary value," from railroads to the extent of disqualifying them to pass on the bill to regulate railroads, the committee on judiciary and commerce today reported back to the house.

President on the Job.

WASHINGTON, June 14.—Because next week may witness the end of the present congressional session President Taft has decided not to start for New Haven Sunday night. If there should be a delay in congress the president will go to New Haven Tuesday night from the White House. But if there is a pressure of business he will forego the privilege of seeing his son graduate.

BROWN'S GOOD OCCASION FOR FRANKLIN, IOWA

Special to The Tribune.

FRANKLIN, Iowa, June 14.—The Pioneer celebration which began in this city today, and will continue throughout tomorrow, has already proved to be the greatest event of the kind in the history of Iowa. Six thousand visitors invaded the town today and tomorrow a much larger throng is expected. These visitors came from all parts of Iowa and Utah. Most of the state officials of Iowa are in attendance at the celebration.

The mill company threatened to seek local warrants for the arrest of the hundred white men who drove out the Japanese, but thus far have taken no action.

CINCHING THE WEAK; THE STRONG GO FREE

Special to The Tribune.

LOGAN, June 14.—Winslow Richards, a young fellow who got aboard too much booze on Saturday evening and when an officer attempted to arrest showed fight, was fined \$25. As a result of the fine there is a lot of bitter comment in the town. The people on the street are of the opinion that the new prohibition law seems to be intended only for those who do not intend to follow the law.

Want Cats in Steel Plant.

CHICAGO, June 14.—The United States steel corporation at Gary wants cats. The demand for cats is because of rats infesting the plant. For months every trap has been tried, but without effect. The final blow came when rats got tangled up in the great dynamo which give power to the blast furnace.

Sherman Cancels Date.

IOWA CITY, June 14.—Vice President James S. Sherman has canceled his engagement to deliver the Iowa university commencement address tomorrow on account of his wife's illness. President Northrup of Minnesota university will speak in his stead.

TEAMSTER ELECTROCUTED; BURGLARS BLOW UP SAFE

Special to The Tribune.

POCATELLO, Idaho, June 14.—While assisting in moving a house under the transit of the Idaho Consolidated Power company's wires just west of town day before yesterday, Ernest Barnard, a teamster, was electrocuted by a live electric wire which fell on him.

Mr. Barnard until recently resided on a ranch near Inkum, Ida. but came to Pocatello and has resided here for several months past. He was about 45 years old and leaves a family. An inquest was held at Pocatello today and the body of Mr. Barnard was found by the coroner in contact with a live electric wire, but they never fixed the blame on either the wire or the power company. Intermittent work of the power company is being under the direction of the Teamsters' union of which Mr. Barnard was a member.

SUPPOSED HOTEL THIEF IS CAUGHT

Clarke Identified as Burglar Who Operated Rather Heavily at Linden.

Frank Clarke, a suspicious-looking character, later identified as the man who is supposed to have entered several rooms at the new Linden hotel last Saturday night and stolen a number of suits of clothes, together with a suitcase, was picked up on Commercial street about 6 o'clock Tuesday evening by Patrolman N. P. Pierce and is now in custody in the city jail.

Clarke gave his age as 20 years and told the police that he is a painter by trade. The suitcase stolen from the Linden hotel was also secured, together with several suits of clothes. E. P. Weber, the night clerk of the Linden, called at the police station later in the evening and identified Clarke as the man whom he had seen hanging about the hotel during the evening before the robbery occurred.

He also identified the suitcase and clothes as those stolen from the hotel. Clarke was charged with burglary. In the robbery charged against Clarke, John D. Day lost the suitcase and William Penn and Sol Frankel two suits of clothes each, valued in the aggregate at \$250. So far all the Linden hotel thieves have been captured and most of the stolen goods recovered.

A private safe may be rented in the fire and burglar-proof vaults of the Salt Lake Security and Trust Company, 32 Up, Main street, \$2.00 per year.
